

XM Satellite Radio is providing an essential service to their subscribers in having instant traffic and weather available for key cities across the nation. With over 100 channels of music, news, and special programs available without static and fade-out and easily selected while travelling, XM Radio is offering a wonderful resource for travellers to drive safely and stay alert. Please reject the National Association of Broadcasters petition to stop this important contribution XM Radio is providing to its drivers. My freedom of choice is being threaten.
